

***EARLY CHILDHOOD  
MATHEMATICS:  
BUILDING A SENSE OF  
NUMBER PK - 1***

Melissa Hosten, [mhosten@math.arizona.edu](mailto:mhosten@math.arizona.edu) [crr.math.arizona.edu](http://crr.math.arizona.edu)  
Center for Recruitment and Retention of Mathematics Teachers, University of Arizona

**Learning  
Target**

***I CAN HELP  
STUDENTS BUILD A  
ROBUST SENSE OF  
NUMBER***

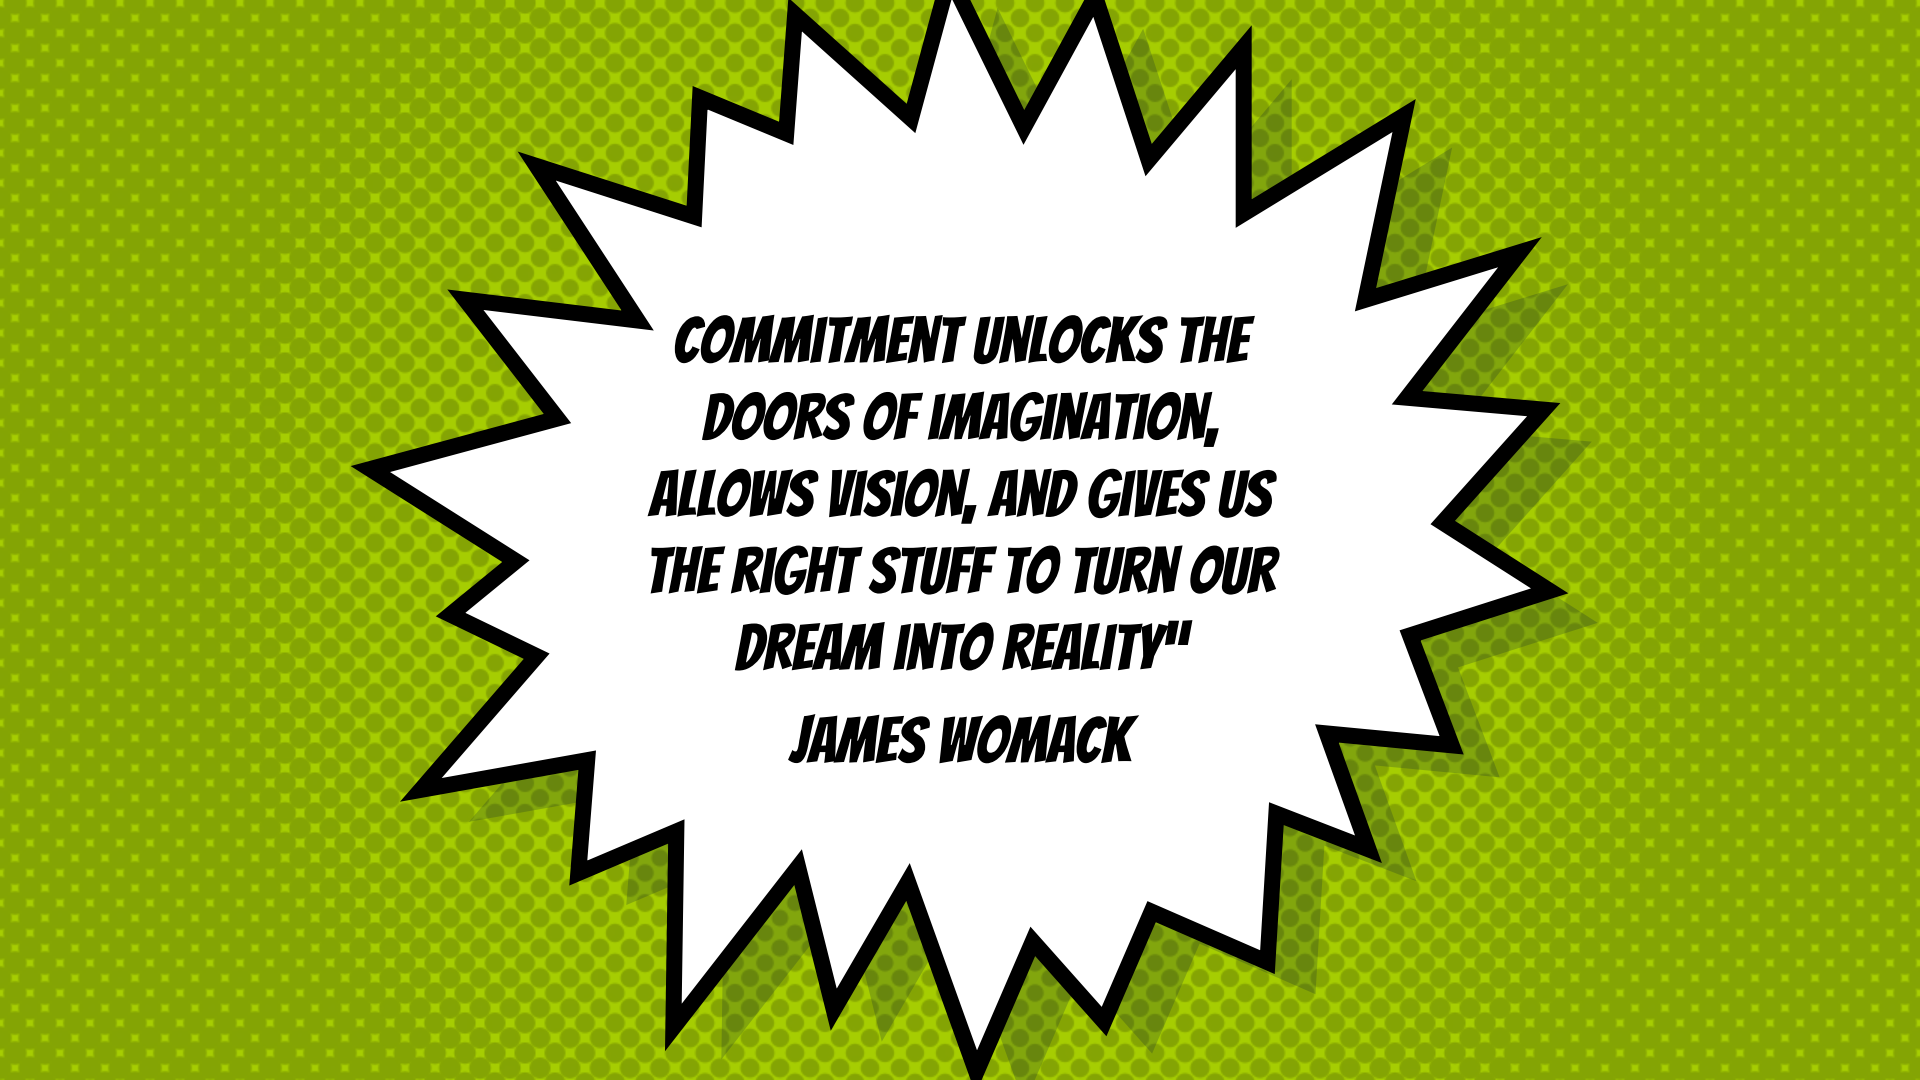

## ***NUMBER TALK NORMS***

When you have an idea use a silent thumb.

While you wait, think of more and more ways.

When I ask for volunteers raise your hand and wait.

You can only share ONE idea.

***COMMITMENT UNLOCKS THE  
DOORS OF IMAGINATION,  
ALLOWS VISION, AND GIVES US  
THE RIGHT STUFF TO TURN OUR  
DREAM INTO REALITY"***

***JAMES WOMACK***

How many do you see? How do you see them?

Now how many do you see?  
How do you see them?

How many do you see? How do you see them?

Now how many do you see?  
How do you see them?

What do you notice about the amount of orange cubes and the amount of green cubes?

# What is the one more or one less for each?

--

# How can you organize these to show a ten more or ten less relationship all the way across?

# WHAT IS THE DIFFERENCE?

## Pre-K

Demonstrates the ability to match object to object in a group (One-to-one correspondence).

Counts a collection of up to ten items using the last counting word to tell, "How many?" (Cardinality)

## Kindergarten

Compose and decompose numbers from 11 to 19 as ten ones and some further ones.

## First Grade

Understand that a two-digit number represents amounts of tens and ones.

..strategies such as counting on, making a ten,

**Group 5: How can you organize these to show a ten more or ten less relationship all the way across?**

***WHAT DID WE ROLL?***

***WHAT DID YOU  
NOTICE ABOUT OUR  
NUMBER TALKS?***

# **TODAY'S NUMBER**

Would each person who has on socks roll 2 dice but

DO NOT say the dice total.

Tell me how many dots are on each dice.

Let's verify the totals.

# ***OUR NUMBER IS ...TEN-SIX WHEN WE COUNTED IT WE FOUND IT WAS 16.***

Let's make today's number using

Ten frames

A rekenrek (number rack)

A part-part-whole mat

A number track

or using your own tool

--	--	--	--	--

--	--	--	--	--

# BR1: What do you notice about these photos?

# What do you notice about these photos?

# What do you notice about these photos?

***WHAT DO YOU NOTICE  
ABOUT THE PATTERNS FOR  
TEN FRAMES?***

😊 Math Bear walked 8 steps, and then he walked 1 more step.  
How many steps did he walk?

😊 I ate 11 pieces of chocolate and then I ate 1 more.  
How many did I eat?

I ate 13 pretzels. Ebony ate 1 less than I did.

How many did Ebony eat?

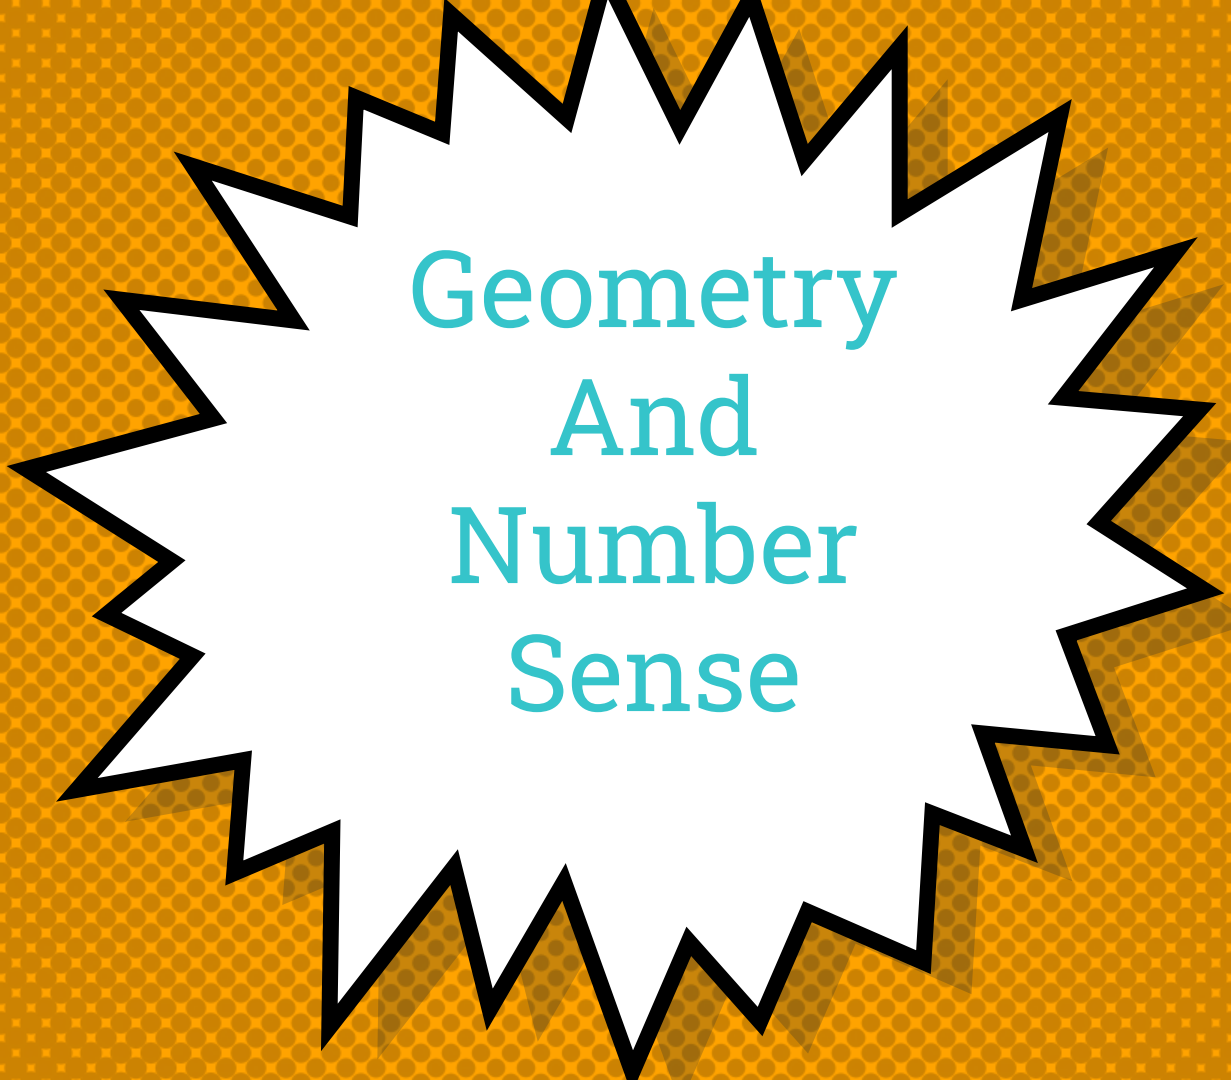

I found 19 painted rocks.

Kerie found 1 less rock than I did.

Jace found 1 more rock than I did.

How many painted rocks did Kerie find and Jace find?

Geometry  
And  
Number  
Sense

# What do you notice?

We can count the sides!

We can count the corners, we call those the "vertices".

What is a vertex?

What can we count on each shape?  
What do you notice about these shapes?

What can we count on each shape?  
What do you notice about these shapes?

***I DREW THE SHAPE BELOW.***

***TIA DREW A SHAPE WITH ONE SIDE LESS THAN MY SHAPE.***

***SITA DREW A SHAPE WITH ONE MORE SIDE THAN MINE.***

***WHAT MIGHT THEIR SHAPES LOOK LIKE?***

***FIND A SHAPE THAT HAS ONE FEWER SIDES THAN NINE.***

***FIND A SHAPE THAT HAS TEN FEWER SIDES THAN NINE.***

# ONE MORE ONE LESS BUMP

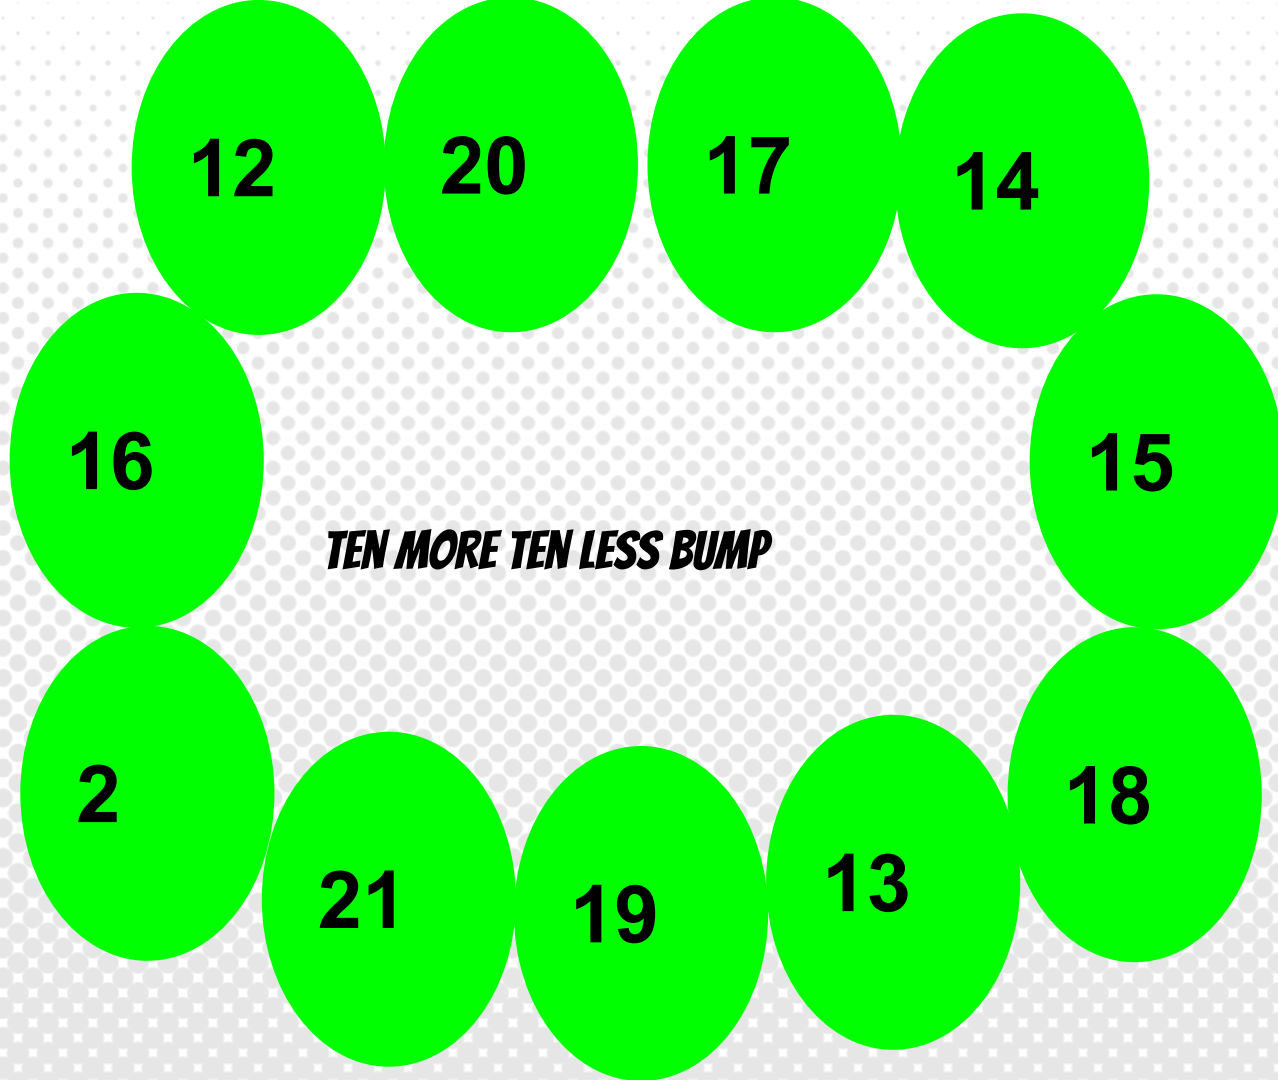

## One More Than BUMP

www.K-5MathAcademy.com

Roll the number cube.  
Put your marker on the spot that is one more or one less than the amount that you rolled.  
If you land on a value that already has a marker on it, you can bump that marker off. When all of the spots are full, the player with the most markers on spots is the winner.

Roll the 2 number cubes.

Put your marker on the spot that is ten more or ten less than the amount that you rolled. If you land on a value that already has a marker on it, you can bump that marker off. When all of the spots are full, the player with the most markers on spots is the winner.

## ***COLLABORATIVE DOT DICE GAMES FOR ONE MORE ONE LESS***

Work together to say the number that is one more than what was rolled. Check the number track to see if the number track agrees. Each time you are both in agreement with the number track you earn 1 point. When you earn 10 points you both won the game. **\*\*Revise to say one less\*\***

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22
---	---	---	---	---	---	---	---	---	----	----	----	----	----	----	----	----	----	----	----	----	----

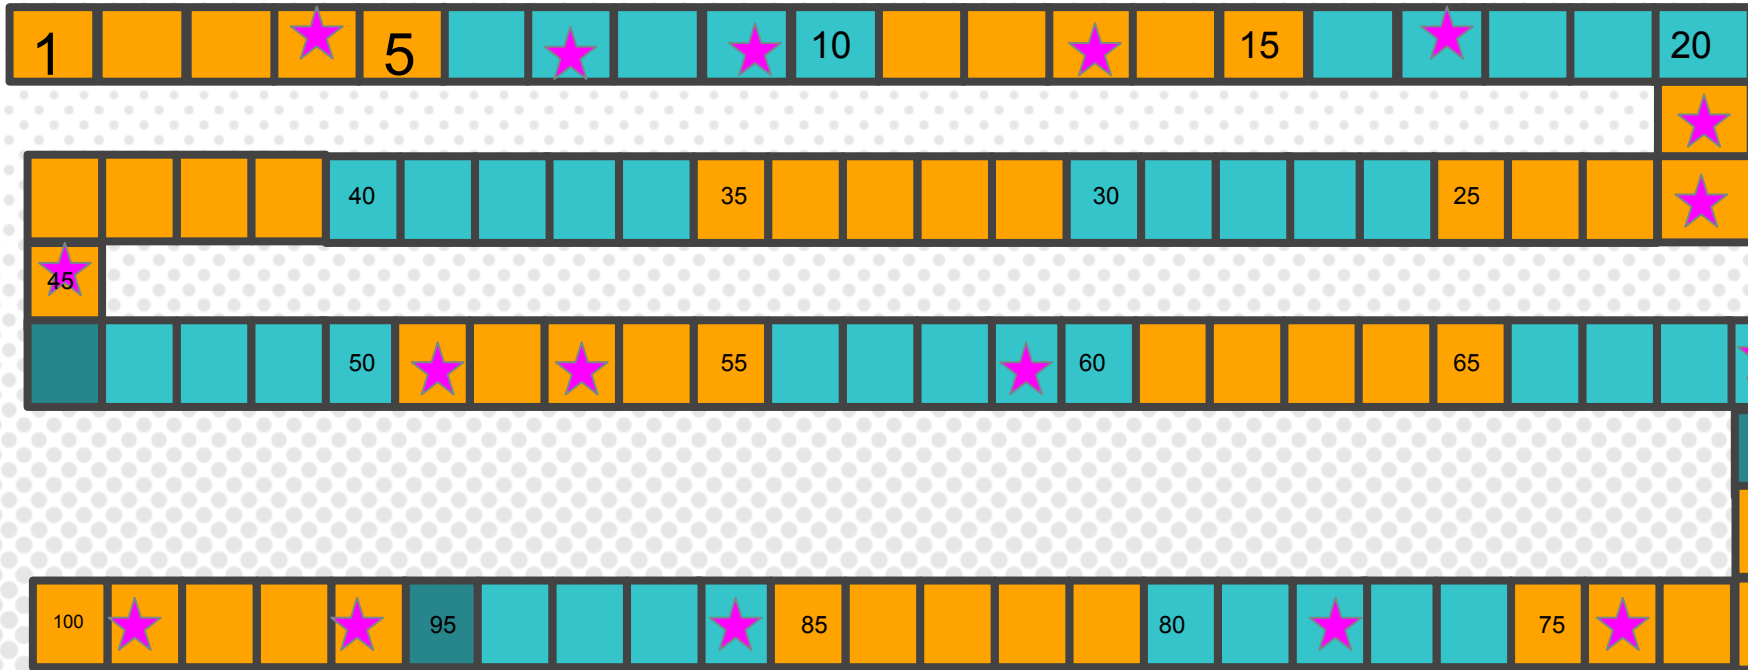

## ***STARS COLLECTIONS***

Students will roll one number cube and count the value. Using the number track, students will move their game piece either one more or one less than the amount rolled in order to reach the finish line, but also reach that finish line with the most STARS collected. Each time their game piece lands on a star they earn a star and can record it on their ten frame. Students CHOOSE to move one more or one less each roll. The game is over when they both reach the finish line.

START

FINISH

## ***ONE MORE ONE LESS WITH NUMERAL DOT CARDS***

Using the numeral cards and dot cards  
Turn over a dot card. Find the numeral card that is one more. Count to check.

Using the numeral cards and dot cards  
Turn over a dot card. Find the numeral card that is one less. Count to check.
